

METHYLATION & GENOMICS SEMINAR SPECIAL ORDER FORM

25% OFF FEATURED PRODUCTS & 20% OFF FEATURED TESTS

Offer ends 30th April, 2018

Brand	Product / Code	Description	Size	Pract. Price (excl. GST)	RRP (incl. GST)	Promo Price (excl. GST)	QTY
MTHFR	Adenosyl B12 (500 mcg) - NEW	Adenosylcobalamin, active B12, which is our mitochondrial form of B12 and is essential to produce energy at the cellular level.	60c	20.35	35.10	15.26	
	Niacin B3 50mg	Niacin helps to reduce methylation reactions and side effects.	60t	11.30	19.50	8.48	
	Prenatal Methyl - NEW	A prenatal multivitamin/mineral for men and women containing key nutrients involved in reproduction.	180c	49.70	85.75	37.28	
	Starter B	The first step in methylation support. Provides B Vitamin support for people with the MTHFR gene mutation to assist key enzymes in the methylation cycle. This product does not contain B12 or folate which allows you to supplement with different forms of B12 and folate as indicated.	60c	19.80	34.15	14.85	
	Total B (Folinic) - NEW	A complex of B Vitamins, including active forms of Vitamin B2, B6, calcium folinate and folic acid. Ideal for those who do not tolerate methyl folate.	60c	27.40	47.30	20.55	
	Total B-(Methyl) - NEW	Vitamin B support with methyl folate and methyl B12. May support and assist methylation reactions. Note: It is important to purchase niacin at the same time as Total B-Methyl to ensure it is on hand incase of an adverse reaction to methyls.	60c	25.60	44.15	19.20	
BodyBio	BodyBio Balance Oil - NEW	Essential Fatty Acids of Omega 6 (LA) to Omega 3 (ALA) at a 4:1 ratio of organic sunflower/safflower seed oil and flax seed oil. Rejuvenates the brain, supports cellular balance, revitalize mood and emotional wellbeing. Available as a liquid or in convenient capsules.	180c	28.25	37.55	21.19	
			473ml	25.05	33.30	18.79	
	BodyBio PC (Phosphatidylcholine) - NEW	Highly concentrated form of phospholipids formulated with a 4:1 Ratio of Omega 6 to Omega 3 in soft gels. Phosphatidylcholine is an important component of all cell membranes. Supports memory, mental alertness, revitalize motor skills, supports behaviour and focus. BodyBio PC avoids digestive break-up by forming Liposomes. Available as a liquid or in convenient capsules.	60c	51.95	69.10	38.96	
			100c	76.50	101.75	57.38	
Enzyme Science	Critical Digestion	Highest potency digestive formula for critical support for digestion and intestinal wellbeing. Contains 1 billion active probiotic cultures per capsule.	30c	23.80	41.10	17.85	
			90c	64.95	99.40	48.71	
Metabolic Maintenance	L-Methionine 500mg	A sulphur containing amino acid. Prevents fat from building up in the liver and beneficial in detoxification.	100c	36.80	63.50	27.60	
	SAMe (200mg)	A critical methyl donor in the central nervous system and cofactor for neurotransmitter synthesis. Promotes mood, improves brain function and supports healthy joints in a stable acid-resistant formula.	60c	68.20	117.65	51.15	
Pure Encapsulations	Amino NR	An amino acid complex that supports athletic training efficiency and promotes a healthy immune response and overall general wellbeing.	180c	33.30	57.45	24.98	
	NAC (900mg)	Provides powerful nutritional support to cells as an antioxidant and specifically supports healthy lung function through its mucolytic capability. NAC also enhances glutathione production and plays a role in heavy metal detoxification.	120c	40.75	70.30	30.56	
Research Nutrition	Active B6 (50mg P-5-P)	Plays a crucial role in supporting the Methylation and Transulfation pathways and is involved in the production of hemoglobin, Intrinsic Factor, and is a vital component in the formation of the myelin sheath that surrounds nerve cells.	60c	24.00	41.40	18.00	
	Folinic Acid	Metabolically active, yet unmethylated and therefore less over-stimulating form of folate. Provides a gentle and invaluable basis to folate supplementation for a broad range of clinical applications.	120c	18.30	31.60	13.73	
	L-5MTHF	Directly facilitating methyl group donation in the body, L-5MTHF supports numerous metabolic processes. This methylated and metabolically active form of folate bypasses the biochemical steps normally required by other folates.	120c	20.50	35.40	15.38	
	Sublingual Hydroxy-B12 (1mg)	Highly absorbable, great-tasting lozenge that won't over-stimulate even the most sensitive patients, when taken at appropriate doses, whilst effectively supporting clinically focused vitamin B12 needs, including healthy homocysteine levels and cardiovascular function.	120 loz	13.40	23.10	10.05

METHYLATION & GENOMICS SEMINAR SPECIAL ORDER FORM

25% OFF FEATURED PRODUCTS
Offer ends 30th April, 2018

Methylation	Brand	Product / Code	Description	Size	Pract. Price (excl. GST)	RRP (incl. GST)	Promo Price (excl. GST)	QTY
	Researched Nutritionals	ATP Fuel	Promotes healthy mitochondrial membrane function and healthier oxidative stress levels. Maximizes the Krebs cycle of cellular energy production.	150c	63.00	96.40	47.25	
		Tri fortify Liposomal Glutathione Gel	Enhances antioxidant action, promotes detoxification and fortifies the immune system. Contains Liposomal Glutathione and Vitamin C, for better utilization in a pleasant tasting orange or watermelon flavoured gel.	Watermelon 236.6ml	97.95	149.85	73.46	
				Orange 236.6ml	97.95	149.85	73.46	
	Thorne	BPP	A blend of HCL, pepsin and pancreatin to aid digestion.	180c	46.65	80.50	34.99	
		Double Strength Zinc Picolinate (25mg)	A well absorbed double-strength zinc supplement 25mg per capsule; essential in human nutrition and metabolism.	60c	18.45	31.85	13.84	
				180c	40.10	69.20	30.08	
		L-Glutamine cap (500mg)	Primary fuel for the enterocytes of the small intestine, promotes GI and Immune health. Also supports wound healing, nutrient support for individuals undergoing chemotherapy and radiation.	90c	23.15	39.95	17.36	
		L-Glutamine powder (5g / serve)		513g (90 serves)	78.25	119.20	58.69	
		Methylcobalamin (1 mg)	An active form of vitamin B12 readily used by the body. Supports heart health, and nerve function.	60c	23.50	40.55	17.63	
Taurine (500 mg)	An important amino acid for cardiac, neurological, liver and gallbladder function.	90c	15.10	26.05	11.33			

** TESTING SPECIALS - END 31ST MAY 2018 **

Test	Discount	Description	Test Kit	QTY
DNA Life				
DNA Health	20% OFF DNA Health panel	<p>DNA Health is concerned with optimising energy, wellbeing and health by making better lifestyle and diet choices, and using supplements tailored to offset any particular nutritional deficit or genetic shortcoming.</p> <p>The DNA Health approach establishes the optimal nutrition necessary for good health, energy, longevity and risk mitigation. DNA Health tests for 32 genes SNPs involved in the following biological processes:</p> <ul style="list-style-type: none"> Methylation Inflammation Oxidative Stress Lipid/Cholesterol metabolism Bone health Insulin sensitivity Food/Nutrient responses <p>>> DNA Health panel Promo Price \$279.20 inc GST (additional panels can be added – Diet, Oestrogen and Sport. DNA Health + 1 panel = \$379.20 / DNA Health + 2 panels = \$479.20 / DNA Health + 3 panels = \$579.20 inc GST).</p>	Free NB - Only 1 kit is required for multiple panels.	
With any DNA Health Test Kit - FREE digital pdf 'Interpretation of SNPs Guide' (tick yes if you would like this to be emailed to you)			<input type="checkbox"/>	Yes
Doctors Data				
Methylation Profile - Plasma	20%	<ul style="list-style-type: none"> Evaluates the plasma levels of Methionine, Cysteine, SAME, SAH, Hcys and Cystathionine Provides the important "methylation index," a ratio of SAME to SAH Test results can appropriately guide nutritional support <p>>> Promo Price \$238.40 inc GST (charged upon return of test)</p>	Free
